Subject: Reference Letter – Dávid Horov

To Whom It May Concern

I have worked with David on building e-commerce project – *heandshe.sk*. I was directly managing David and he was in the role of developer and designer. He has transferred our old e-shop to a completely new modern responsive e-shop. He has integrated it with invoicing system, payment gateway and other features we required. Working with David was spontaneous and satisfactory. He worked responsibly and willingly. We had regular meetings where we discussed new functionality and when the work was done he made a tutorial where he described how to change stuff and add new products.

We were satisfied with the approach he chose. For us, the communication is essential and even after the handover of the project, communication was positive. In the future we can imagine working with David again. We will definitely move positive references forward.

Sincerely,

Iveta Wijnands Sýkorová
