Subject: Reference Letter – Dávid Horov

To Whom It May Concern

This year our company started online courses, and we hired David to help us with the website and with testing platform for students. He also connected our website to invoice system which saved us a lot of time. As we are not IT specialists, David was very helpful with setting up everything what we needed.

Communication with David was very good, he answered our messages as soon as possible and we could call him on Skype whenever we needed. His work was always done in time and in high quality. We will contact David again in case of new projects.

We can highly recommend David for this job as very careful and organized person.

Sincerely,

Lucie Ulrichová
