Subject: Reference Letter – Dávid Horov

To Whom It May Concern:

I am writing in reference to Dávid Horov as his former superior and colleague in the Trisbee startup company.

When we started to working together on a daily basis I was immediately surprised by Dávid's proactivity and curiosity way beyond his job competence. He always asked the right questions and constantly brought in solutions even without any previous discussions.

I, as a designer in the heart, am truly delighted to work with the engineers like him because it can save a lot of time and a slice of a budget if there's no need to have endless meetings just to clarify obvious things. When you have a real partner on the journey to deliver the job then it's easier for everyone, highly effective and more fun!

I highly recommend Dávid as a very valuable part of any development team because of his sustained effort to deliver things on time and with very good quality.

Sincerely,

Antonín Pospíšil
